

## The new world of Saffire

Tasmania is blessed with an abundance of natural beauty; from untamed wilderness to pristine lakes, rugged peaks, timeless rivers and a coastline daubed in vivid whites, blues and greens. Perhaps one of the most beautiful places of them all is Freycinet National Park, and with such inspiration to draw on, it is no wonder that Saffire, the new high-end property tucked away on Freycinet Peninsula, is so stunning. Its 20 luxurious suites, made of timber and stone, offer sweeping views of Great Oyster Bay and the Hazards Mountains. Spoil your senses with the superb local produce served in Palate restaurant, indulge in a treatment or three at the Spa, and immerse yourself in the beauty of the environment. Take a hike, paddle a kayak and do a cooking class. [www.saffire-freycinet.com.au](http://www.saffire-freycinet.com.au)
